LAUREL OAK CEMETERY, WINDSOR, MISSOURI

This cemetery lies at the south east border of Windsor, at the end of Smith Street on Highway TT. The oldest part is on the east side of the road, inside the first gate. After this section was filled the section across the road was established. After it too was filled the land adjoining the eastern tract was purchased and the cemetery has continued to expand southward.

Although the town was incorporated in the 1850's it was not until 1870 that the first cemetery lot was sold. However, there are many burials older than this. While some of them were undoubtedly moved in from country graveyards there is reason to believe that many of these older graves were placed there before it was officially created and lots sold.

There are many unmarked graves and many more with metal markers too on which the information has long since weathered away. Then too, there are stones which are weathered beyond reading.

The cemetery is well kept and has many beautiful hard maple trees which are especially beautiful in the fall. There are also several stately pines. There are three mausoleums and many impressive stones.
